

This November, bring abuse out of the shadows and into the light.  
**Shine a purple light during domestic violence awareness month.**

In November, join the community in commemorating domestic violence awareness month.

**By shining a purple light bulb or candle, you can help:**

- **Raise awareness** of family violence
- **Remember** those who did not survive the violence
- **Support** those who are still hurting and healing after the violence
- **Offer hope** for those still living with abuse

Send the message that everyone deserves to feel safe in their own home

Let those who are suffering the pain of abuse know they aren't alone
